Navigating the New SFX Website

The St. Francis Xavier Website has a fresh new look along with added features. Use the guide to learn where to find the most frequented posts as well as what new items are available.

The Home Page contains menu items at the top of the page that remain available as you scroll down through the site. Most of these items are unchanged, but there are some slight improvements that will be highlighted later in this guide.

The slideshow that runs across the first section of the site is controlled by the five dots at the bottom of the picture. The pictures will slide automatically but clicking on the dots will jump you to the next one in line. There may be links embedded in the picture, so take some time to view them all.

(Note the link embedded in this photo)

The four links that run underneath the slideshow allow you to jump to some of the most frequently visited pages. These may change periodically during the liturgical year but will most likely always offer links to bulletins and homilies.

As you scroll down, the next section of the website provides Mass, Adoration and Reconciliation Times, along with helpful links such as the current Lenten Schedule.
