

Member Work Groups (Ministries)

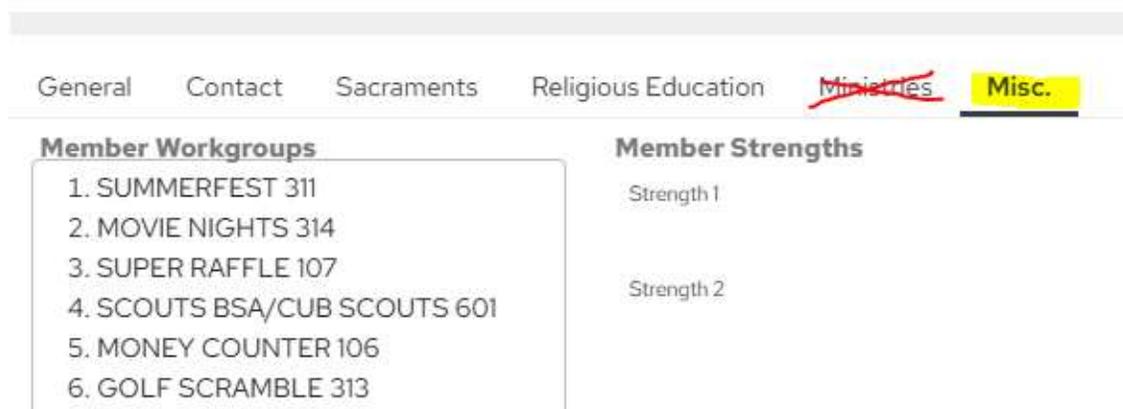

To view the Ministries in which you are already registered, log in to Parish Soft / My Own Church and click on Family Detail.

Then click on the Member Details tab and choose a family member to view.

Scroll down to the bottom of the member's information and select the Misc. tab (Not the Ministries Tab – the information in that section is not up to date).

This will bring up a listing of the Ministries for the selected family member. You cannot update your own ministry listing, but you can reference this list when filling out your stewardship form. You can indicate any ministries you wish to drop and those you are interested in joining and the office will update your profile.
